SUNPOWER SELECTS SOLAR WORKS INC FOR ITS COMMERCIAL DEALER PROGRAM

Solar Works is First Combined SunPower Residential and Commercial Dealer Selected for the New England Region

Montpelier, Vt. -- May 2, 2007 -- Solar Works Inc., headquartered in Montpelier, VT, has been chosen by SunPower Corporation (NASDAQ: SPWR), a Silicon Valley-based manufacturer of high-efficiency, commercially available solar cells, solar panels, and solar systems, to join its Commercial Dealer Program as an authorized solar integrator responsible for the New England region. Solar Works is the first dealer in New England to be selected by SunPower as both an authorized Commercial Dealer and a residential Premier Dealer.

As part of this agreement, Solar Works will have access to SunPower's PowerTilt® and PowerGuard® commercial roof mounting systems, which will be paired with SunPower's high efficiency commercial modules.

"Solar Works is thrilled to have this relationship with SunPower. We see that there is incredible value in the combined product offering to our customer base," said Ron French, president of Solar Works Inc. "We believe that we are now in a better position to develop the commercial market in the Northeast because SunPower's products will generate more power from the somewhat smaller roofs that we have in the Northeast."

"Solar Works has what we look for in a solid commercial dealer. They have experience in the commercial sector. They have in-house expertise to successfully deliver larger projects on time and on budget. And finally, they have a track record of successful installations with satisfied customers," said Mark McKahan-Jones, SunPower Director of Dealer Sales .

About Solar Works

Solar Works, Inc. (www.solarworksinc.com) is the leading solar electric systems integrator in the Northeast serving commercial, institutional and residential customers. Over the past 25 years, Solar Works has installed over

800 renewable energy systems. Solar Works has expertise in engineering design, project management, performance analysis, project financing and renewable energy credit programs. Founded in 1980, Solar Works is active in commercializing new technologies and developing renewable energy programs for both public and private sector clients.

About SunPower

SunPower Corp. (Nasdaq: SPWR) designs, manufactures and markets high- performance solar electric technology worldwide. SunPower's high-efficiency solar cells and panels generate up to 50 percent more power per unit area than conventional solar technologies and have a uniquely attractive, all-black appearance.
